

We mourn the loss of our founder

Hans Strothoff

* 28.11.1950

† 11.08.2020

Dear members of the school community, ladies and gentlemen,

We know Hans Strothoff as a passionate and committed person, a man with a clear vision. He touched the lives of many with his ideas and not only initiated countless projects over the last 40 years, but has also been an advocate of the young generation. It was part of his mission to prepare young people for the rising challenges of our times and to raise them to be open-minded and tolerant. That was his motivation when he founded Strothoff International School eleven years ago. He has been deeply involved in the school life as our generous supporter ever since.

Unfortunately, I have to share the sad news with you that Mr. Strothoff, founder, owner and CEO of the MHK group and founder of our school, has passed away after battling a serious illness.

Hans Strothoff's passing is a massive loss. We have all appreciated him as a forward-thinking man with great visions for the future. He considered our school community part of his family and "his school" was always a matter dear to his heart. Our thoughts are with his wife Jutta Strothoff, his daughter and family. We deeply honour Hans Strothoff's legacy and his tireless efforts and support for our school and will remember him with gratitude.

Michael Höfig.
